## Skills

---

### Front-End

HTML | HTML5

CSS | Tailwind CSS | Bootstrap

Javascript

React.Js

Redux | Redux Toolkit

### Back-End

Node.JS

Mongo db

Express.JS

### Testing

Postman

## Projects

---

### E-Commerce Shopping Cart Fornt-End ✍

- Developed an e-commerce website with both user and admin interfaces using React.js, HTML, CSS, Bootstrap, Material UI, and Tailwind CSS.
- Improved website performance, achieving a 25% faster page load through efficient coding and optimized styling
- Built user-side features, including product listing, product filtering, and shopping cart functionality, achieving a professional-level experience with 90% similarity to industry-standard websites, along with secure checkout capabilities.
- Built an admin dashboard for product management, enabling quicker data retrieval by 40%.
- Integrated reusable components to maintain code consistency and enhance scalability.
- Applied modern design practices to ensure accessibility, visual appeal, and user-centric design principles.
- Utilized GitHub for version control, code management, and collaboration, ensuring the project's ongoing maintainability.
- Implemented **reusable components**, reducing code duplication by 30% and improving maintainability.

## Professional Experience

---

### Full Stack Developer Intern

*Bridgeon Solution LLP Software Training Institute with Industry* ✍

2024 – 2025 | Malappuram

- Developed and maintained dynamic and responsive user interfaces using React for seamless user experiences.
- Utilized HTML5 and CSS3 to implement pixel-perfect designs, ensuring compatibility across all browsers and devices.
- Built reusable components and optimized application performance using React's component lifecycle methods and hooks.
- Integrated Bootstrap and Tailwind CSS to design modern, mobile-first web pages with user-friendly navigation.
- Collaborated with cross-functional teams to design and implement UI elements based on Material Design principles using Material-UI.
- Worked on improving the overall speed and performance of the website through clean, modular code and efficient styling.
- Implemented responsive web designs to ensure the website is mobile and tablet-friendly.
- Participated in code reviews and collaborated in sprint meetings to improve coding standards and development workflows.
- Dedicated to improving coding skills through daily **LeetCode** practice and actively managing project code on GitHub for effective version control and collaboration.
- Executed high-quality front-end development for dynamic web applications using React and other modern libraries.

### Mern Stack Developer

*IMIT Park Public Limited* ✍

03/2025 – present | Thrissur, India

## Education

---

### BA MASS COMMUNICATION AND JOURNALISM

*CM College of art's & science*

2018 – 2021 | Wayanad
